

## COMMONWEALTH TRANSPORTATION FUND REVENUE REPORT

### December 2025

#### Summary

Commonwealth Transportation Fund (CTF) revenues increased by 6.1 percent (\$27.6 million) in December compared to the same month last year. This increase is primarily attributable to an increase in Insurance Premiums Tax and Motor Fuels Tax collections. The growth in these collections is slightly offset by decreased collections from the International Registration Plan and Motor Vehicle License Fees.

#### Motor Fuels Tax

Motor fuels taxes collections increased 3.2 percent in December compared to the same month last year.

The West Texas Intermediate Spot Crude Oil Price average decreased to \$57.97 per barrel in December from \$60.06 in November. The Energy Information Administration's (EIA) forecast for crude oil prices suggests that the price will decrease in 2026 to an average of \$56 per barrel from an average of \$69 per barrel in 2025, a decrease of 19 percent. This reduction will be caused by a planned increase in oil production from the U.S. and OPEC+ countries.

Real average price of a gallon of regular fuel decreased to \$2.90 in December. The EIA estimates that the increased supply of crude oil will drive the average price of a gallon of gas to approximately \$2.89 in Calendar Year 2026, down from \$3.15 average price for 2025.

#### Motor Vehicle Sales and Use Tax

Motor vehicle sales tax collections decreased by 1.1 percent in December.

Total U.S. light vehicle sales increased to 16.0 million (SAAR) units in December 2025, from 15.6 million (SAAR) in November.

New light-vehicle sales increased 13.8 percent in December month-over-month, with two fewer selling days than October, but decreased 2.3 percent year over year compared to last December. According to Kelly Blue Book, the average transaction price (ATP) for a new vehicle increased 1.1 percent compared to November, and 0.8 percent compared to this month last year. Sales of used vehicles, from franchised and independent dealers, increased 2.0 percent in December compared to November, and grew 2.9 percent compared to this month last year. According to the Manheim Used Vehicle Value Index,

wholesale prices were up 0.1 percent month-over-month in December, which is 0.4 percent increase compared to this month last year.

According to Cox Automotive, 84,294 new electric vehicles were sold during December, which denotes an increase of 14.4 percent from November, but a 38.0 percent year-over-year decrease from this month last year. Used EV sales totaled 28,579 for the month, a 9.7 percent increase from November, and a year-over-year increase of 10.2 percent over December of last year. The average transaction price for a new electric vehicle decreased 0.4 percent this month compared to November, but increased 2.4 percent compared to December 2024. The average transaction price of a used electric vehicle decreased 0.1 percent month-over-month and decreased 1.2 percent year-over-year.

#### State Retail Sales Tax

The transportation portion of state retail sales tax collections increased by 2.9 percent in December.

#### Motor Vehicle Licenses

Motor vehicle registration fee collections decreased 6.9 percent in December.
